

Spokane DX Association

K7SDX - Spokane, Washington
PO Box 28882 - zip 99228

SDXA - 03 march 2011

the meeting was called to order by the president, K7EKM, Kirk, at 19:00 local time.

secretary's report by WA0WWW, jay W;
minutes for january are on the club's web page: <http://www.sdxa.org/?p=1166>
treasurer's report by K7GS, Gary. we have about \$9700
VP's report n/a WX7B, Chris, is in Denver.

old business:

- we all need to be thinking about running over to Seattle for the WWDX DX convention this coming 12,13,14August. we need to support the other conventions also, and we did not do so well last year. (thanks Kirk and Pat.) <http://www.wwdxc.org/>
- the 30th annual Puyallup Hamfest is coming up on March 12th
- Prospectors on N Division for banquet is being considered for the annual december banquet.
- Dues or due, will remove from roster in a bit
- the SDXA Marathon 2011 internal contest is on and started on 00:00z 01jan11, and will conclude at 23:59 31oct11, with your results into the SDXA secretary by 23:59 12nov11.
 - o will follow the CQ rules again and more info on our web page.

New business:

- Yakima Hamfest is 09april11; in Sealy, WA.
- Visalia is coming up 15-17april; the 62nd International DX Convention; <http://dxconvention.org/>
- VU4BP-Andaman Island DX help;
- need to start some discussion on Field Day planning next month. we should consider to do the old fashion type again with setting up antennas and doing it in the field.
- K7KB, John, has picked up duties of our web master. anything for the web, send to John or an officer.
- ARRL SS CW and SSB results are available. we all ne to congratulate or Pres, K7EKM for his outstanding effort in phone SS.

+ CQ WW WPX Contest, SSB	0000Z, Mar 26 to 2400Z, Mar 27

- see below for a listing of more contests coming:

program:

- the program was by N5AR, Dan, who brought his hi-pot tester for checking tubes, vac variables and vac relays. K7EKM, Kirk, also brought a service monitor to check out your handhelds.
- from Dan: Transmitting tubes contain a getter material. When heated to a high temperature it maintains the vacuum by absorbing gas in the tube. When the tube is not used for some period of time, the gas comes out of the getter and contaminates the vacuum. This can result in flashover and damage to the tube or other components. The vacuum may usually be recovered by following a proper start up procedure. The condition of the vacuum may be determined by measuring the current between the grid and the plate when a high DC voltage is applied. I will bring to the meeting my HiPot tester to check any vacuum components for our members. It would help me greatly if anyone needing tests would let me know:
 1. What are the various parts you are bringing?
 2. Which pin is the control grid on your tubes? On glass tubes we should have no problem seeing this but on external anode tubes we can't see.

next month:

- next month's meeting will be on thursday 07 April, at the Argonne Library on Argonne and Up River Drive in the valley (4322 N. Argonne Road in the Spokane valley.) program is tba.
- respectfully submitted by wa0www, jay w, secretary.

- at the Argonne Library on Argonne and Up River Drive in the valley (4322 N. Argonne Road in the Spokane valley.)
- at the North Spokane Library - 44 E. Hawthorne Road, up north at the 'Y'.
