6) PAC NW DX convention is coming up the last weekend of July, the 25th-27th, should be good. please consider going up to Vancouver/Westminster, BC. and representing the club and having some fun. here is the link:

<http://orcadxcc.org/vancouver2014/home.html>.

- as of 02july, there were 158 registered. (have heard they are up to 170 now, maybe breaking our record, darn it.)
- at this point only have heard 3 to 4 members and some spouses from SDXA.
- The officers have given Randy K7TQ the authority to speak for the club on the PCNWDX trophy cub contest and the 2017 Convention, our next turn. both of these also involve working with the IDXA club.

7) the annual aug/sep picnic this year will be at the Prez's place in Mead.

- Saturday 23rd at WX7B QTH 4 till 8 pm to allow for cooler temps and shade in the back yard. 12906 N. Sheridan St. Mead, WA
- Will have pop, etc and roast beef for sandwiches, BBQ grill if you want to use it. Bring whatever other drinks you would like. WX7B residence will have some beer choices for you also.
- Cruise Director XYL Trish will be contacting other XYLs to coordinate pot luck.
- We have chairs for about 12 so bring one if you can.

new business

8) well the Google and Bing search engines are good, our roster comes right up. what do folks want to do?

- after discussion we decided to back down the list on the web to just name and call, and remove the other personal information.
- also, no change from before, the list with the phone numbers and all is available is always to and SDXA club members, just ask the secretary. will send by email or paper at a meeting.
- after the meeting the secretary remembered, the basic list of calls and names is already on the web site, with a link at the top of the home page. so the day after the meeting worked with the officers and web master (K7AWB) and got that list up to date. so a file in the background will not be needed. and this list has links to QRZ for everyone also.

announcements:

the program:

- 10) #1 - an amazing presentation by PJ2DX, Geoff, on the updates to PJ2T. the work party of 5 guys from all over were numerous projects to do, antennas (without traps!!), another air conditioner, and the most it should not work, but it does beautifully, was the triplexer from 403A. I could go on but it can handle simultaneously 10m, 15m and 20m 1500 watt stations into one antenna. yep, 4500 watts into one antenna, and no desense in any of the receivers. wow.
- 11) #2 -solar update per Randy, W7TJ and looks like cycle #24 is on the way down, really on schedule, but since it was such a low level cycle, it will hit bottom quicker than the past cycles.
- a. and unfortunately there is very long term indicators cycle 25 will be even lower levels than the current cycle 24. that is a triple darn.

next month:

- 12)next month's meeting will be the picnic at the Prez's
- 13)respectfully submitted by wa0www jay w
- 14)and the great snacks from AE7GT and AC7MV, Mary Beth and Dave, were really good.
