Links and Notes from N1MM+ Setup From Beginner to Intermediate

In order as they appear in the video

N1MM+ Home page - https://n1mmwp.hamdocs.com/

N1MM+ Download page - https://n1mmwp.hamdocs.com/getting-started/downloading-the-software/

Log Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#2-the-log-window

Database discussion - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#new-database

Start a new log - https://n1mmwp.hamdocs.com/getting-started/setting-up-for-a-contest/

QSO Parties - https://n1mmwp.hamdocs.com/manual-supported/contests-setup/setup-qsop-contests/

Radio and N1MM+ talk to each other - https://n1mmwp.hamdocs.com/setup/the-configurer/#hardware-tab

Config Window - https://n1mmwp.hamdocs.com/setup/the-configurer/

Entry Window - https://n1mmwp.hamdocs.com/manual-windows/entry-window/

Tools - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#tools-menu-selections

Download and Install Latest Check Partial file (master.scp) (Internet) – this file contains a list of known contest operators and is the source for possible calls that appear in the Check Window when you type a call in the Entry Window

Download and install latest country file (wl_cty.dat) (Internet) – this file contains prefixes that N1MM+ uses to identify the various countries.

Arrows to change font – most N1MM+ windows have small arrows in the upper right hand corner that will increase or decrease the font size of that window. The size of the window will not change.

How to change frequency in Entry Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#entry-window-text-commands

How to make changes in Log Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#editing-the-log

MORTTY - https://hamprojects.info/mortty/

Winkey in Config - https://n1mmwp.hamdocs.com/setup/the-configurer/#winkey-tab

Function key discussion - https://n1mmwp.hamdocs.com/setup/function-keys/

Location of default CW function file – usually in "C:\DOCUMENTS\N1MM Logger+\FunctionKeyMessages" with name of CW Default Messages.mc

Enter Sends Message discussion - https://n1mmwp.hamdocs.com/setup/function-keys/#esm-enter-sends-message

Useful keys
>Esc will stop outgoing CW
>Alt-W will Wipe the entry in the Log Window
>The equal key (=) will send the last Function key or keys

Check Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#5-the-check-window

Telnet Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#4-the-telnet-window

Bandmap - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#3-the-bandmap-window

How to select in Bandmap - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#3-the-bandmap-window then page down to "Keyboard Shortcuts" then "Mouse Actions." The direct link is currently is broken.

Available Mults Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#6-the-available-mults-and-qs-windows

How to operate two contests at the same time - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#contest-list

Info Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#7-the-info-window

Gray Line Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#13-the-grayline-window

Score Summary Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#8-the-score-window

Multipliers Window - https://n1mmwp.hamdocs.com/n1mm-manual/windows/#9-the-multipliers-window

In alphabetical order by topic

Arrows to change font – most N1MM+ windows have small arrows in the upper right hand corner that will increase or decrease the font size of that window. The size of the window will not change.
